# A complete toolbox to wipe out onychomycosis

## INTRO SPECIAL ON STARTER KITS!

### ToeFX IS A SAFE, EFFECTIVE, PAINLESS, IN CLINIC PHOTODISINFECTION TREATMENT FOR ONYCHOMYCOSIS

**ClearToe Serum** - Applied to the nails via the easy to use pen. Each pen treats all 10 toes per in-clinic anti-fungal session.

**ClearToe Pens** - each pack of 10 covers a complete patient fungal treatment program

**ClearToe Therapy Lights** - The curved LED light fits over all 5 toes. No heat so no discomfort. Safe to use anywhere - not a laser product.

**ClearToe Therapy Lights** - treat both feet & all toes at once preventing cross contamination!

***Each ToeFX Starter Kit also includes a training and resources component. Access is provided to the ToeFX University Portal. This includes a training and certification module, consultation with ToeFX experts and valuable information to assist you as you explore incorporating ToeFX into your practice.***
